BSL VALUES

Trust

"Golden Eggs" you won't get at work, without trust:

1. **If you want real engagement – you need trust.** Real engagement can't be bought, or faked. Lack of engagement is a symptom, not the problem. The problem is distrust. If you want engagement – you have to trust.
2. **If you want innovation – you need trust.** Great ideas can't be pulled from someone's head; they must willingly give them. And they are usually given to those we trust.
3. **If you want to keep high performers – you need to trust.** High performers tend to not like low trust environments. Want to hire and keep the best? Create an environment where employees feel trusted by management – they will more likely rise to managers expectations and perform better.
4. **Communicating is hard. Not communicating is hard.** You are more likely to enter the hard conversations when you feel trusted/respected. And please don't wait on someone else to take the first step. This is everyone's responsibility.

Suggestion Box

Located at the BSL Offices, when you get off the elevator hanging on the wall to your left. Share your ideas concerns or give feedback – big or small. Share Anonymously or share your name. **Please check out the Digital Suggestion Box on the BSL website.**

Let's build a better workplace – together!
